### Secure Wireless Configuration For iOS - iPhones & iPads

**NOTE:** You must be on campus to execute these instructions

version 2.x – 7.x

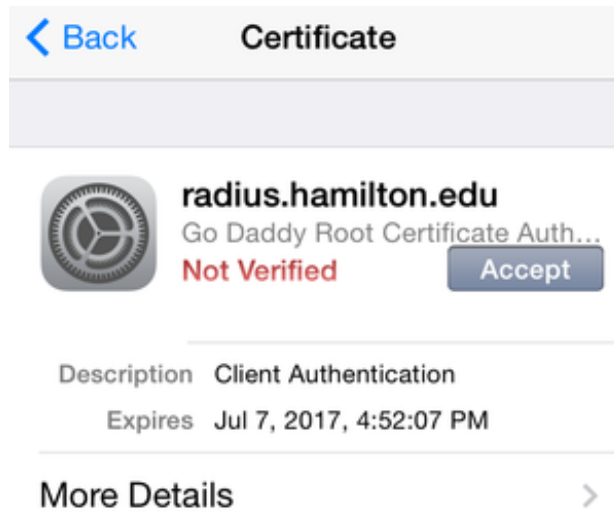

1. Click the Home button.
2. Click on **Settings**.
3. Click on **Wi-Fi**. Turn on **Wi-Fi** if off.

4. Click **Other**.
5. In *Name* type in aps-hamilton.
6. Click **Security** and select WPA2 Enterprise.
7. Click *Other Network*.
8. Enter the username and password to the secure network in *Username* and *Password*. Make certain to omit the @hamilton.edu from your username.

9. Click **Join**.
10. Accept the **radius.hamilton.edu** certificate when prompted.

**NOTE:** . If the computer doesn't join to the secure wireless it is due to incorrect entry or it is retaining an old setting such as ap-hamilton. To remove **ap-hamilton** go to networks and "**Forget this network**" then try configuring again for secure wireless.
