1. To copy the link into Blackboard, use **Edit > Copy** to copy the url for the web page you created then navigate to the area of your course where you would like to place the link, and then click the Edit Mode switch to **On** in the upper right of the Blackboard window to display the toolbar.
2. Click on the **Build Content** tool button and then select the **URL** option. Type a name for the video in the **Name** field.
3. Click inside the URL field and select **Edit > Paste** to copy the link from your clipboard (or right-click).
4. In section two, enter the text “This video requires the most recent version of the QuickTime
5. player, available for free download from www.quicktime.com.”
6. In section three, select **Yes** for the *Open in new window* option if you would like the video to be shown in a new window.
7. Click on the **Submit** button to add your video to the page.
8. Be sure to test your video in Blackboard by clicking on its link in Display mode.
