Multimedia Presentation Center

What is the MPC

The Multimedia Presentation Center (MPC) is a state-of-the-art computing facility equipped with cutting-edge hardware and software, as well as a full range of support services, specifically designed for authoring multimedia-enhanced presentations.

The Multimedia Presentation Center, located on the ground floor of Burke Library, has 21 quad core iMacs running Mac OS X Lion. The Macintosh workstations are set up as multimedia editing workstations, and can be used to produce a variety of digital content, as well as standard word processing. Color laser printing is available for academic purposes only.

MPC Location and Hours of Operation

The MPC is located on the first floor of the Burke Library and follows the same hours of operation, available here.

An Overview of MPC Services

The MPC is equipped to support a wide variety of multimedia-enhanced presentation formats including:

- Large format, photo-quality printing
- Medium format color laser printing
- Web content with audio, video and animation
- PowerPoint with audio and video
- Digital Video
- Scanning, including slide, transparency and reflective media
- Mini DV, CD and DVD

Please direct any questions or inquiries about large format posters to the MPC professional staff. askus@hamilton.edu, x4888.
