### Class of 1970 Chorus Rehearsal
All former Choristers are invited to rehearse for our Prime Time appearance at the Saturday night dinner. Please gather in the Ferguson Lounge (DU) where Professor Bruce MacIntyre will lead a brief rehearsal in preparation for Prime Time. ### Class of 1995 Entertainment
Join us in the tent outside the Little Pub for a performance by Americana Singer-Songwriter and Recording Artist Jess Klein '95. "Over a career that spans more than a decade and a half and has won her a devoted worldwide fan base, Jess Klein - who possesses what Mojo magazine calls "one of those voices you want to crawl up close to the speakers to listen to" has pursued a remarkable creative evolution that's seen her dig ever deeper for resonant emotional insights, while continuing to refine her eloquently melodic, effortlessly accessible songcraft."

The Orchard: Performance Showcase
The Orchard, piloting on the Hill this June, is an artist residency and development program that brings together alumni and students to create and share work in the performing arts.

Come see work-in-progress selections from:

*Lizzie was odd ... / The Fall River Axe Murders by Angela Carter*: a devised theatre piece based on Carter's story of Lizzie Borden combining text, movement, and puppetry arts, conceived and directed by Matthew Woods '88 and featuring young alumni and student performers.

**Cooking Demonstration: Thrive Under Pressure!**
Overcome your fear of the pressure cooker, and learn a method of cooking that could change your life! Samantha Koss '95, and her husband, David Freedman, will lead a demonstration that is sure to be exciting (but not scary, we promise!). You'll be amazed at how easy and fast it is to prepare soup or stew, pasta and sauce (at the same time!) and even a cheesecake (yes!).

**Fracking**
Hydraulic fracturing over the past few years has become an extremely contentious environmental issue despite its potential as a tool to extract a cleaner burning fossil fuel than coal, the current main energy source for electric power production in the United States. Angus McGrath '85 will provide a description of the process and potential environmentally sensitive aspects of hydraulic fracturing (HF) or "fracking". Angus works as an environmental consultant to the unconventional gas industry in Pennsylvania, Texas, North Dakota and Canada.
