

THE COLLEGE SEARCH PROCESS

is an exciting adventure. In addition to all of the important components of it — like determining what qualities you value most in an institution of higher learning — you will no doubt be affected by this process in many other ways.

One of them is figuring out how you will sort and filter all of the information coming your way from various institutions (perhaps you've already amassed your own collection). And if our hunch is right, that collection will soon take over your dining room table, your bedroom, that box under your bed ... all you need is another glossy brochure with lots of lofty rhetoric to sift through and digest. So, we hope to make it easy for you. What follows is, quite simply, a sampling of Hamilton facts and lists — the stuff we take seriously, and what we think we're good at, in some cases, what other people think we're good at. It's all that we want you to know about Hamilton.

(At least for now.)

Enjoy.

Hamilton is a national leader in teaching students to write effectively, learn from each other and think for themselves.

HAMILTON'S PROMISE

There is no one Hamilton student just as there is no one Hamilton experience, but the promise we make to all our students is the same:

At Hamilton, you can study what interests you, be accepted for who you are and what you believe, and prepare to be the person you were meant to become.

COLLEGE PURPOSES AND GOALS

Hamilton College is committed to the intellectual and personal development of students. We seek to nourish a love of learning, a creative spirit, and an informed and responsible engagement with an ever-changing world. To promote these qualities, students work with their advisors to devise an educational program that fosters eight goals:

- 1 Intellectual Curiosity and Flexibility
- 2 Analytic Discernment
- 3 Aesthetic Discernment
- 4 Disciplinary Practice
- 5 Creativity
- 6 Communication and Expression
- 7 Understanding of Cultural Diversity
- 8 Ethical, Informed and Engaged Citizenship

CURRICULAR DISTINCTIONS

At Hamilton, where faculty-student advising matters, we provide academically focused students an individualized education characterized by intense student-faculty interaction, an emphasis on oral and written communication, an appreciation for diverse views, and the ability to make thoughtful choices about their intellectual pursuits. The academic program is rigorous with two defining characteristics:

No Distribution Requirements — students take courses because they are interested in the subject, not to fulfill a requirement.

Writing Program — communicating well is so important to one's future that all Hamilton students are required to take three writing-intensive courses.
