

Make the right choice – don't pay more for your medication

Optum[®] Home Delivery and CVS[®] can help you easily manage your medication through the **CVS90 program**.

How the CVS90 program works

CVS90 gives you the option to fill a 3-month supply of the medication you take regularly at Optum Home Delivery or a CVS Pharmacy. The choice is yours.

Your time to enroll is limited

- Your plan covers a limited number of 1-month refills from a retail pharmacy. After the grace fills run out, you may pay more for your medication.
- After your allowed fills, **you must choose to fill a 3-month supply of your medication through Optum Home Delivery or a CVS Pharmacy. You may pay more if you don't make a choice.**

Getting started with CVS90
