SEA Semester Course Offerings for Hamilton January Admits

Fall 2017

- Students will enroll in a total of 17 semester hours.
- Students must earn a B- or better in each course to earn a total of 4 units of Hamilton credit.
- **QSR** – Quantitative & Symbolic Reasoning. None of the courses offered on this program fulfill the QSR requirements. Students should register for a course that does during their first two semesters at Hamilton. This is a requirement for graduation.
- **WI** – The writing-intensive requirement consists of 3 writing-intensive courses, each taken in a different semester. One needs to be outside of the student’s major(s). None of these courses fulfill this requirement so students should register for a writing-intensive course during the first two semesters at Hamilton.

All of the students on this program will be taking the following pre-approved courses:

**Maritime Studies** (200-level, 3 credits)
This course will count as a general or Environmental Studies elective.

**Nautical Science** (200-level, 3 credits)
This course will count as a general elective.

**Oceanographic Field Methods** (200-level, 4 credits)
This course will count as a Geoscience elective.

**Oceanography** (200-level, 3 credits)
This course will count as a Geoscience elective. Students will not be allowed to take Geosc 112 (The Marine Environment) at Hamilton.

**Practical Oceanographic Research** (200-level, 4 credits)
This course will count as a Geoscience elective.
