Update: Finance & Budgets

We’re pleased to share important updates regarding the Workday Finance platform as we continue to enhance our processes. Two full weeks have passed since the Workday launch, and we appreciate your ongoing cooperation and patience during this transition. We hope you had a restful and enjoyable Fourth of July weekend!

We’re excited to announce that Workday’s finance, budget, expenses, and procurement modules are live! This marks another significant step forward in modernizing our systems and enhancing our operational efficiency.

The Transition

- Fiscal Year 2025 budgets are now in Workday, with a custom report forthcoming. We’ll contact primary budget managers for training.
- Current purchase orders from Colleague were uploaded and invoices can be put in through Workday.
- Transactions for Fiscal Year 2024 still use the current forms.
- Supplier Punchouts, an innovative tool that allows users to access external supplier catalogs directly from within Workday, will be available for Hamilton College users soon.
- The first check run will be on July 11, 2024. Any invoices, expenses, and supplier invoice requests for external payees (formerly Check Requests) need to be submitted by July 10, 2024 to be processed by July 11, 2024.
